

Need A Shrink Specialist?

No need to look any further! Thermosleeve USA has partnered with China's largest manufacturer of heat shrink tubing which not only is responsible for 30% of the world's production but has even greater dominance with PTFE tubing with a world market share of a round 40%! When it comes to tubing we are serious about our business.

Thermosleeve USA products are manufactured under strict TS16949 Quality System and ISO14001/IS9001 Environment System certifications and are produced to meet or exceed UL/224/MIL approval requirements. Thermosleeve USA products are also certified under the following agencies, U/L, TUV, VDE, C-UL, F-Mark and the factory is a registered "Green Partner" with Sony and Samsung Electronics.

If you're manufacturing wire harnesses, rest assured Thermosleeve USA probably offers a tubing to meet your requirements. Our products are certified under the following standards: ROHS, AMS-DTL-23053/4/5, SAE-AS81531, MIL-STD-202 whether your primary focus

is automotive, communications, construction, electrical, electronic, energy... Thermosleeve USA has got you covered. So next time you're looking for heat shrink tubing give us a call, toll free, at (800) 421-3536 and speak with one of our specialists or with any of our following regional representatives:
